

Hamilton Local School District

EXHIBIT 4.4

June 22, 2020

DIVERSITY RESOLUTION

Whereas, the Hamilton Local School District Board of Education is saddened by the racial and social injustices that continually occur across our country; and

Whereas, Hamilton Local Schools wants it known that we stand firmly behind those who have expressed a need for civil change in our country, especially any district student, employee, or community member who has been a victim of racial or social injustice in their lives; and

Whereas, our district remains committed to educating students in an environment that welcomes diversity and displays compassion and inclusivity among all students and employees; and

Whereas, it is our responsibility to provide every student and employee in our district with a safe and nurturing place to learn and work every day; and

Whereas, we will consciously work to provide curriculum and resources that educate all of our students about different cultures, diversity, history, and current events so they have a broad knowledge about the world around them; and

Whereas, we will provide our employees with professional development pertaining to racism and cultural diversity; and

Whereas, we will continue to work with local municipal leadership to come up with solutions that will remove any racial or social injustices in our district boundary; and

Therefore, Hamilton Local Schools will focus on conversations and programs that include equity and cultural competency among all students and employees, while continuing to teach each child and provide an environment that is filled with love and respect for all who visit our schools each day.

The resolution was first by _____ second by _____.
