HTHS Credit Flexibility Option B Refusal of Earned Credit

Student _____

ID _____ **Earned Grade** _____

Course _____

Students who choose Hamilton Township High School's Credit Flexibility Option B are able to accelerate their high school career by demonstrating mastery of the skills and content of a course on a challenging and comprehensive assessment.

Students who achieve a score of 80 percent or better on a course's Option B assessment may earn credit for the course. However, students who achieve the 80 percent mastery standard also have the option of forgoing the earned credit by declaring that they will attend the course for the duration of the semester or year it is offered and attempt to achieve a higher score than the score achieved on the Option B assessment.

Students who forgo the earned Option B credit for a course are cautioned that they later will not have the option of accepting the credit after declaring that they will attend the class or achieve credit by completing a different HTHS credit option.

By signing below the student refuses Option B earned credit for the identified course and cannot recover the Option B credit at a later date.
